

1970 Plymouth Fury
Luxury you can afford.

Plymouth
makes it ♥

Sport Fury 2-Door Formal Hardtop with optional vinyl roof

Sport Fury

When you've made it...

A long time ago, you promised yourself a car that would set you apart from the crowd. A car with obvious care taken in building and designing every inch of automobile.

Such a car is here.

The 1970 Plymouth Fury.

The hard part is deciding which of our 28 Fury models makes it for you.

Let's start at the top with our Sport Fury. A brand-new series

of Furys with six choices: 4-door sedan, 2-door formal hardtop, 2- and 4-door hardtops... plus the GT and S/23 performance models. And there are two optional luxurious Brougham interiors, too.

They are big cars with distinctive styling. And a new wide-distance look. We've added

more width between the rear wheels. Fiberglass-belted tires are standard for longer wear and increased stability. There's also our exclusive torsion-bar suspension system. The result? A more solid riding car; yet one that is easy to handle.

Other new features include an anti-theft ignition switch on the column that locks the wheel when you remove the key...

Sport Fury 4-Door Hardtop with optional vinyl roof

a loop front bumper and massive rear bumper that gives your Fury a lean, low look... hideaway headlamps... color-keyed body side protection moldings... and a new lane changer turn signal—the slightest pressure on the lever will activate it; after you've changed lanes, release the lever and the light goes off.

There's much more.

Concealed windshield wipers. Big brakes with deeply finned front drums, flared rears. Ventless door-glass on 2-door hardtops. The 1970 Sport Fury rides quietly. Extra acoustic material placed within the body, cuts outside noise to a minimum. All standard.

Inside, more standard luxury.

The elegance of all-vinyl or cloth-and-vinyl interiors with a fold-down center armrest.

Simulated walnut-grain appliques on the doors and instrument panel.

An impressive array of instruments lit by miniature non-glare floodlights.

And options including TorqueFlite automatic transmission, Chrysler Airtemp air conditioning, vinyl roof, much more.

Fulfill the promise you made the first time you realized a

car could be more than just transportation.

Plymouth makes Sport Fury so you can keep that promise.

Optional all-vinyl bucket seats with console Column-mounted, anti-theft ignition switch Conveniently repositioned trunk lock

Sport Fury 2-Door Hardtop

Sport Fury
Rushing off in a huff
doesn't make it.
Driving home
in a Fury makes it.

And our Sport Fury more than makes it. Because we make it with more.

A luxurious cloth-and-vinyl or all-vinyl bench seat that includes a folding center armrest is standard. So is probably the most advanced, easy-to-read, instrument panel in its class. Miniature floodlights illuminate the gauges and switches.

Sport Fury 4-Door Sedan

Other convenient features include a repositioned trunk lock and a column-mounted ignition switch.

Outside, bright sill moldings, wheel lip moldings and full-length body side moldings with color-keyed, no-mar vinyl inserts. Belt moldings on hardtops. Plus hideaway headlamps to set off the new loop bumper.

Our big 318 cubic inch V-8 is standard. But you can have a

383 (2-barrel or 4-barrel) or a 440 4-barrel (available on sedan, 2-door Formal hardtop and 4-door hardtop models) just by saying the word.

Underneath it all are the things that have given Plymouth its engineering reputation.

Our basic Unibody. Over 4000 individual welds make it strong and quiet.

Torsion-bar suspension is up front. Standard. No one else in

Plymouth's class can say that. In fact, they don't even offer it as an option.

That "shiny-limousine" finish is not only beautiful, but practical. Fury's 7-step dip-and-spray treatment is a real rust resister.

And the two coats of acrylic enamel can be buffed back to showroom lustre even after

years of exposure to the elements. That means money in your pocket at trade-in time.

Options include Chrysler Air-temp air conditioning, power brakes (regular or disc), power steering. Up to six vinyl roof choices, an AM/FM stereo radio, Tilt steering wheel with a Rim-Blow horn activator, or maybe you'd like to step up a class to a set of our optional wheel covers.

A more complete listing and explanation of our options is found in back.

Sport Fury GT & S/23

Simply showing your stripes doesn't make it. Having something to show for your stripes makes it.

A popular misconception these days is that a couple of racing stripes on a car make it a hot performer. The secret is to look behind the warpaint.

Our Sport Fury GT and S/23 models have the stripes—in force.

Dual hood runners in either white, black or burnt orange. And reflective "Strobe Stripes" on the side and rear deck lid.

To back them up, our GT can be ordered with an optional 440 6-barrel engine. That ought to tote away a flock of trophies from the local sanctioned drag strip. The GT's standard 440 Super Commando 4-barrel isn't much tamer.

We also gave the GT a heavy-duty suspension system

with heavy-duty brakes. Big H70 x 15" tires. A 3.23:1 axle ratio (2.76:1 is optional). Road wheels. And chrome-plated dual exhaust tips. All standard. The S/23 features our proven 318 V-8 engine, torsion-bar suspension, front anti-sway bar, fiberglass-belted tires, our road-hugging wide stance, and Plymouth's reputation for making it.

Both cars come with the cloth-and-vinyl or all-vinyl bench seat with fold-down center armrest. But may we suggest our optional all-vinyl buckets as an added performance touch. The instruments are floodlit so they're easy to read and reach. They'll remind you of aircraft instrumentation.

Another convenience is the repositioned trunk lock located to the side of the car closest to the curb.

Basically, these are our performance Furies. But if you want more, be our guest.

Add options like: 3-speed TorqueFlite automatic transmission (standard on the GT). Disc brakes. A simulated wood-grain steering wheel.

If buckets are your style, a console is available. An AM/FM stereo so you can keep tabs on the underground beat.

Sport Fury GT 2-Door Hardtop

Sport Fury S/23 2-Door Hardtop

All-vinyl interior with folding armrest

Aircraft-type instrument panel

Brougham cloth-and-vinyl interior

Brougham
It's not only
the way it looks.
It's the way it
makes you feel.

There's no doubt about it, our Brougham interior is something to behold. One look and your only question will be whether to get it in all-vinyl or cloth-and-vinyl.

We're proud of the way our Brougham seats look, and feel. They're luxuriously plush with

deep-set trim buttons. Deep-routed seams. And nylon net upholstery that indicates fine car elegance and wearability.

Sit in them. There's the real beauty. As you'll discover the first time you take a long drive.

You'll appreciate the seating comfort. Mile after mile after mile.

Brougham all-vinyl interior

Car fatigue is cut to a minimum. Because the Brougham seat adjusts to you, not vice versa.

In 4-door Sport Furies, for instance, you start with a bench seat that is really two individual front seats. Each adjusts with-

out reference to the other. And has its own center armrest. In addition, the passenger side reclines.

May we suggest the power 6-way seat adjuster as an option. The seat can be quickly adjusted to each individual

driver. Just a flick of the finger does it all.

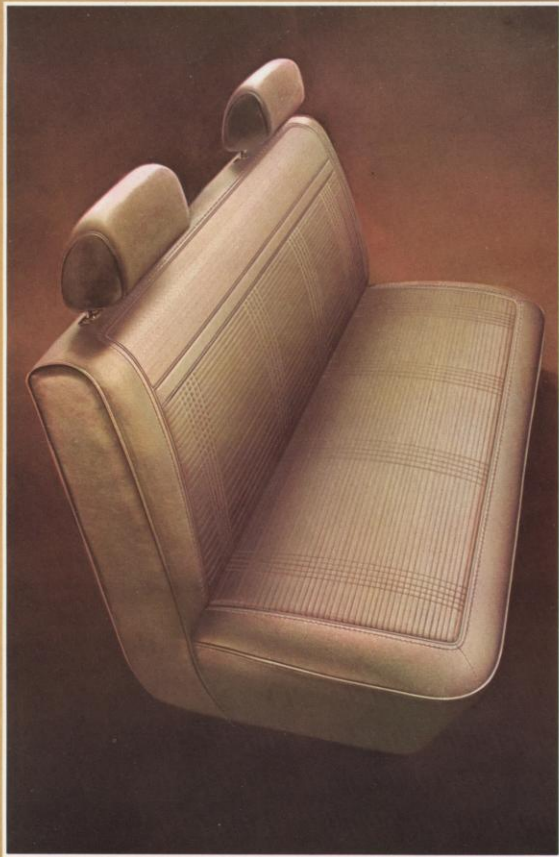

On 2-door models, you get individual seats with passenger side recliner and center armrest. Rear passengers have easy entrance and exit.

To top it all off, a Brougham medallion is mounted on the side of the roof right behind

the rear passenger window. It's not available on the standard 2-door hardtop.

Ah, Brougham! The noblest seat of them all.

Fury III cloth-and-vinyl interior

Fury III
Bigness for bigness sake
doesn't make it.
Fury makes it big
for your sake.

Having a big car just to have a big car is ridiculous. But when a big car means more comfort and convenience, then you've got something—like Plymouth's Fury III.

It's almost 18 feet long. Its wheelbase measures a full ten feet.

Inside, it's plenty roomy and plenty comfortable. Plus being plenty quiet.

The sumptuous cloth-and-vinyl standard seat certainly helps in the comfort department. Vinyl bench seats with a folding

center armrest are optional.

In the trunk—21.5 cubic feet. That's enough for many suitcases and a golf bag.

The engine? A big 318 V-8, standard. Other optional V-8s

are two stirring 383s (2-barrel and 4-barrel), and a 440 4-barrel if you want something mightier.

Want options? Take your pick: Tilt steering with a Rim-Blow horn. A light to help you find the new column-mounted ignition switch at night, and

another to guide you to the headlight switch. They both shut themselves off automatically.

Or cool it—with a Chrysler Airtemp air conditioning unit. Add an AM/FM stereo radio. A stereo tape deck.

Wheel covers. A headlight time-delay so you can keep your headlights on long enough to light your way into your home.

Power steering. Power brakes. Power seats. (See the options spread for more extras.)

Without a doubt, our Fury III

Fury III 4-Door Hardtop with optional vinyl roof

Fury III 2-Door Hardtop with optional vinyl roof

is a big car. But more importantly—in the right places, for the right reasons.

Fury III 2-Door Formal Hardtop with optional vinyl roof

Fury III Convertible

Fury III
If you're looking
for today's look.

Today's look is more than just bell bottoms and sideburns. It's a whole attitude.

In cars, that attitude is Plymouth.

For 1970, Fury III is the mover. More beautiful than ever, with its new wide-stance look.

A look that's backed up by confident performance.

A powerful 318 cubic inch V-8. With options ranging from a 383 2-barrel that runs on regular all the way to our 440 4-barrel.

Plus Plymouth gives you better stability and handling.

Here's why: Added width between the rear wheels. Big, husky fiberglass-belted tires. And torsion-bar suspension.

Inside, luxury through and through. Simulated wood-grain applique on the instrument panel padding. The convertible carries an all-vinyl bench with a folding armrest. An all-glass backlight that doesn't have to be unzipped when you fold the top down. And a wide rear seat. All standard.

Other Fury IIIs, like our formal hardtop above, come with all-vinyl seats as an option.

Buckets are also available optionally on 2-door hardtops and the convertible. Either a fold-down center arm cushion

or a console can go between the seats. Your choice.

The instrument panel is packed with gauges that tell you where you stand at all times. Not a lot of those little lights that tell you you're in trouble after you're already in it.

Cut loose and give today's world a fling. That's what Fury III is all about.

Fury III optional all-vinyl interior with folding armrest

Fury II 2-Door Sedan

Fury II & Fury I
If you want a big car
that won't
break your budget.

It's a common dilemma. You need a big car. But you don't see how you can fit it in the family balance sheet.

Plymouth proposes a couple of solutions. Fury II and Fury I. Big, good-looking cars. And they go out of their way to save you money.

The initial price is low. But that only starts the savings.

Fury I 4-Door Sedan

We make both 6- and 8-cylinder models. The standard Six being that noted gas station hater—our 225 cubic inch.

If you're looking for a little more power, check our 318 V-8. It runs on regular and the mileage will surprise you. Pleasantly.

As a matter of fact, you can go as high as our optional 383 2-barrel and still be on regular gas.

Other optional equipment that you can select for your Fury includes a remote control outside mirror, AM push-button radio, fender-mounted turn signals, sporty wheel covers, bumper guards, TorqueFlite automatic transmission, power steering and brakes.

Interiors are simple but hardly spartan. A cloth-and-vinyl

bench is standard for the Fury II, with a tough all-vinyl seat on the Fury I.

The floodlit instrument panel is also standard. As are our unibody construction, torsion-bar suspension and a wide choice of acrylic enamel colors applied over our 7-step dip-and-spray anti-rust treatment.

Other standard features: Fiberglass-belted tires. Torsion-bar suspension. An anti-theft, column-mounted ignition switch. A lane changer turn signal. Concealed wipers.

Fact is, so much is standard on our Fury II & I models that you'll be hard pressed to figure out how we got the price so low. But we did. And your bud-

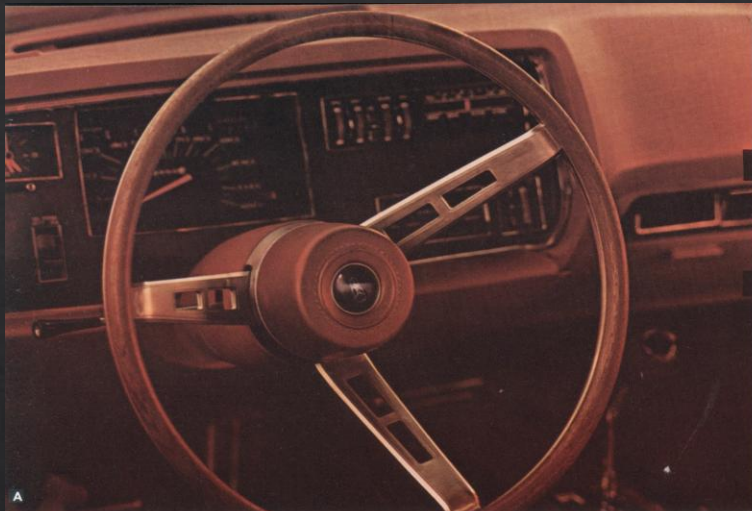

get will look that much better for it.

Here is luxury you can afford.

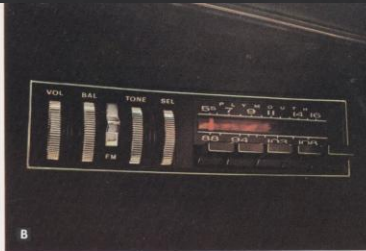

Fury II optional all-vinyl interior

L

Any option you want, to make any type of driving easier...

A. Power Steering. Simulated Wood-Grain Steering Wheel. For ease in maneuvering and parking ask for power steering. The optional steering wheel has all the advantages in looks and feel of real wood; and none of the disadvantages like splitting or color change.

B. AM/FM Stereo Radio. Whatever type of music you like, tune it in with an AM/FM stereo radio. True stereophonic sound with unequalled tone and sound quality. Ask for the 8-track stereo tape deck and listen to your personal favorites anytime, anywhere. Available AM radio only.

C. Vinyl Roof. Add an elegant note of distinction to your Fury with a vinyl top. Available in six selections: black, antique green, white and champagne plus you can choose the Tortoise Grain or the new Gator Grain materials.

D. Fury Wheel Covers. Make Fury personally yours. Add sporty wheel covers. A plus in good looks.

E. Rallye Wheels. Road wheels feature stainless-steel trim rings, chrome-plated center covers, and exposed

chrome-wheel nuts. Great for enthusiasts.

F. Power Disc Brakes. Help to assure yourself of safer, surer, fade-free stops with power disc brakes.

G. Chrysler Airtemp Air Conditioning. Cleans, dehumidifies, and cools the air quietly and efficiently. With Auto-Temp control you can set it at any temperature between 65 and 85 and forget it. Its total-temperature control means total comfort, winter or summer.

H. Fender Skirts. Custom fitted fender skirts will give your Fury a more rakish look.

I. Turn Indicators. Twin turn indicators are distinctively integrated into the hood styling of your Fury. A brand-new location for '70. (Part of light package.)

J. Time-Delay Ignition Switch And Headlamp Switch Lights. A beam of light is directed at the column-mounted ignition when you open the door and remains on after the door

is closed, then shuts itself off. A second light illuminates the headlamp switch. Ends nighttime hit-and-miss hunting for the ignition and headlamp switch. (Part of light package.)

K. TorqueFlite Transmission. If you prefer your transmission on the automatic side, select smooth-shifting TorqueFlite. Console or steering column mounted. Your choice.

L. Auto-Speed Control. Accelerate to the speed you choose, then press the button on the end of the turn signal lever, automatically that speed is maintained. A touch on the brake disengages the speed control, twist

the grooved ring and the car returns to the speed previously set. Makes long-term highway driving a breeze.

Additional Options. Electric clock. Tilt steering wheel with Rim-Blow horn switch. Three-speed windshield wipers. Power windows. Power six-way seat adjuster. Power door locks. Tinted windows. AM push-button radio. Headlamp time-delay system with "Headlights-on" warning buzzer. Bumper guards. Remote control outside mirror. Heavy-duty suspension. 70 amp/hour battery. Heavy-duty

shocks and brakes. Deluxe seat belt package. Trailer-towing package. Rear window defogger.

Sport Fury GT 2-Door Hardtop

**Economy, high performance,
or a happy medium,
Plymouth makes
just the engine for you.**

The 225 Slant Six uses regular gas (sparingly), and delivers a full 145 horsepower. With it you get a 46 amp/hr. battery and a silenced air cleaner. Ask for TorqueFlite automatic transmission and you'll get a 10 1/4 inch torque converter. Plenty of power. Inexpensive upkeep.

The standard 318 V-8. Its 230 horsepower and 2-barrel carburetor deliver plenty of go, and on regular gas. It features a silenced air cleaner with preheat feature, and a transistorized voltage regulator, new for 1970.

The Commando 383 V-8 (2-barrel). You get power to spare. At 4400 rpm it delivers a solid 290 horsepower, and has a low-restriction exhaust system. An 11 inch clutch comes with manual transmission. With TorqueFlite automatic you get an 11 3/4 inch torque converter.

The Super Commando 383 V-8 has four barrels and 330 horsepower. Silenced air cleaner, 59 amp/hr. battery and dual exhausts with a sound that says "make way."

The Super Commando 440 V-8 is standard on Sport Fury GT and a good choice for any Fury you choose.

It has a 4-barrel carburetor, plus heavy-duty, self-adjusting brakes and suspension. Its 350 horses will let you know you're moving.

If the Sport Fury GT is your choice, and if you want extra power for any sanctioned events, ask about the **Special 440**. With three 2-V Holley carburetors and special design throughout, this engine has the guts to do whatever you want. If you can handle it, get it.

Whatever you want in an engine . . . Plymouth makes it.

Suspension

Front: Independent, lateral, non-parallel control arms with ball joints and torsion bars.
Rear: 59 in. outboard-mounted asymmetrical leaf springs, 5-leaf, 6-leaf standard with 440 engines.
Shock Absorbers: Tubular, Hydraulic-Telescoping type.
Brakes: Dual Hydraulic Braking system standard on all '70 Plymouths. System contains a dual master-cylinder. One system for front; one system for rear. Both systems are actuated by the same brake pedal. Instrument panel mounted warning light signals pressure loss in either system. Brakes are self-adjusting, servo-contact, self-energizing, with bonded linings. Brake shoes are internal expanding type. Separate mechanical parking brake, cable connected, operates on rear wheel brakes.

Standard Features:

Sport Fury

Loop front bumper • Radiator grille with concealed headlamps • Dual headlamps • Red, white, and blue radiator grille ornament • Front fender nameplate "Sport Fury" (part of side marker illuminates with light) • Protective vinyl body side moldings • Outside rearview mirror • Taillamps with back-up lights in rear bumper • Deck lid lock medallion and integral "Sport Fury" script • 120 mph speedometer • Fuel gauge • Temperature gauge • Ammeter • Low oil pressure light • 3-position headlamp switch • Thumbwheel panel light dimmer and interior lights • Emergency flasher • Push-button electric windshield washers • 4-position blower switch • Directional signals with lane-change feature • Cigar lighter • Glove box lock • Padded instrument panel • 3-spoke steering wheel with horn pad and partial horn rim • Trunk compartment light • Front and rear door courtesy light switches • Glove box light • Ash receiver light • Sun visors • Front armrests • Rear armrests with ash receivers • Carpeting with padding • Road silencer and insulation • Instrumentation with non-glare floodlights • Many other safety and convenience features

In addition, the S/23 includes:

Hood stripes • "Strobe Stripes" reflective tape • Front anti-sway bar • Rallye road wheels

The GT includes:

440 4-barrel Super Commando engine • H 70 x 15 fiberglass-belted tires • Rallye road wheels • Chrome exhaust tips • Hood stripes • Heavy-duty suspension • 3.23 axle ratio • "Strobe Stripes" reflective tape • Heavy-duty brakes

Fury III

Loop front bumper • Protective vinyl body side moldings • Hub caps • Outside rearview mirror • Vehicle side marker reflectors with lights • Taillamps with back-up lights in rear bumper • Deck opening upper belt molding on convertible • 120 mph speedometer • Fuel gauge • Temperature gauge • Ammeter • Low oil pressure warning light • Turn signal indicators • 3-position headlamp switch • Thumbwheel panel light dimmer and interior light • Electric windshield washers • Emergency flasher • Directional signals with lane-change

feature • Cigar lighter • Glove box lock • Padded instrument panel • 3-spoke steering wheel with horn pad and partial horn rim • Ashtray light • Pocket panel light, convertibles • Trunk compartment light • Front door courtesy light switches • Sun visors • Dual front shoulder harness • Safety door locks • Crank-operated vent windows (except 2-door hardtop) • Front and rear armrests • Carpeting with padding • Roof silencer and insulation • Instrumentation with non-glare floodlights • Many other safety and convenience features

Fury II

Loop front bumper • Radiator grille, bright and black aluminum • Outside rearview mirror • Hub caps • Taillamps with back-up lights in rear bumper • 120 mph speedometer • Fuel gauge • Temperature gauge • Ammeter • Low oil pressure warning light • 3-position headlamp switch • Thumbwheel panel light dimmer and interior lights • Heater control • Push-button electric windshield washers • 4-position blower switch • Directional signals with lane-change feature • Cigar lighter • Glove box lock • Padded instrument panel • 3-spoke steering wheel with pad • Dome light • Front door courtesy light switches • Sun visors • Vulcanized door panel crest • Crank-operated vent windows • Armrests, front and rear • Carpeting with padding • Roof silencer and insulation • Instrumentation with non-glare floodlights • Many other safety and convenience features

Fury I

Loop front bumper • Radiator grille, bright and black aluminum • Dual headlamps • Hub caps • Outside rearview mirror • Fuel gauge • Temperature gauge • Ammeter • Low oil pressure warning light • 3-position headlamp switch • Thumbwheel panel light dimmer and interior lights • 2-speed electric windshield wipers • Push-button electric windshield washers • 4-position blower switch • Directional signals with lane-change feature • Cigar lighter • Glove box lock • Padded instrument panel • 3-spoke padded steering wheel • Dome light • Front door courtesy light switches • Sun visors • Crank-operated vent windows • Armrests, front and rear • Roof silencer and insulation • Instrumentation with non-glare floodlights • Many other safety and convenience features

Personalize your 1970 Fury and satisfy your alter ego with any of 18 handsome exterior colors. Express yourself with any of the mild to wild shades that are new for 1970. Your Fury will stay bright and shiny, too. Plymouth's 7-step dip-and-spray rustproofing process and high-quality acrylic enamel provide maximum protection for continued good looks. For a colorful way to take it . . . Plymouth makes it.
