

CADILLAC
FLEETWOOD-DE VILLE
1986

THE CADILLAC PROMISE

Owning a Cadillac is a satisfying experience. The pleasures come in sometimes unexpected ways.

Such as appreciating the state-of-the-art electronics that serve one important function: to make your driving as carefree as you wish it to be.

Admiring contemporary road manners that tame the twists and turns...without compromising legendary Cadillac luxury and comfort.

The solid sound every time you close a door. The security of safety features that surround you mile after mile.

Above all, it's the feeling of uncompromising excellence. A tradition of quality and attention to driver and passenger needs and demands.

Is it any wonder driving a new Cadillac is a pleasure to be envied?

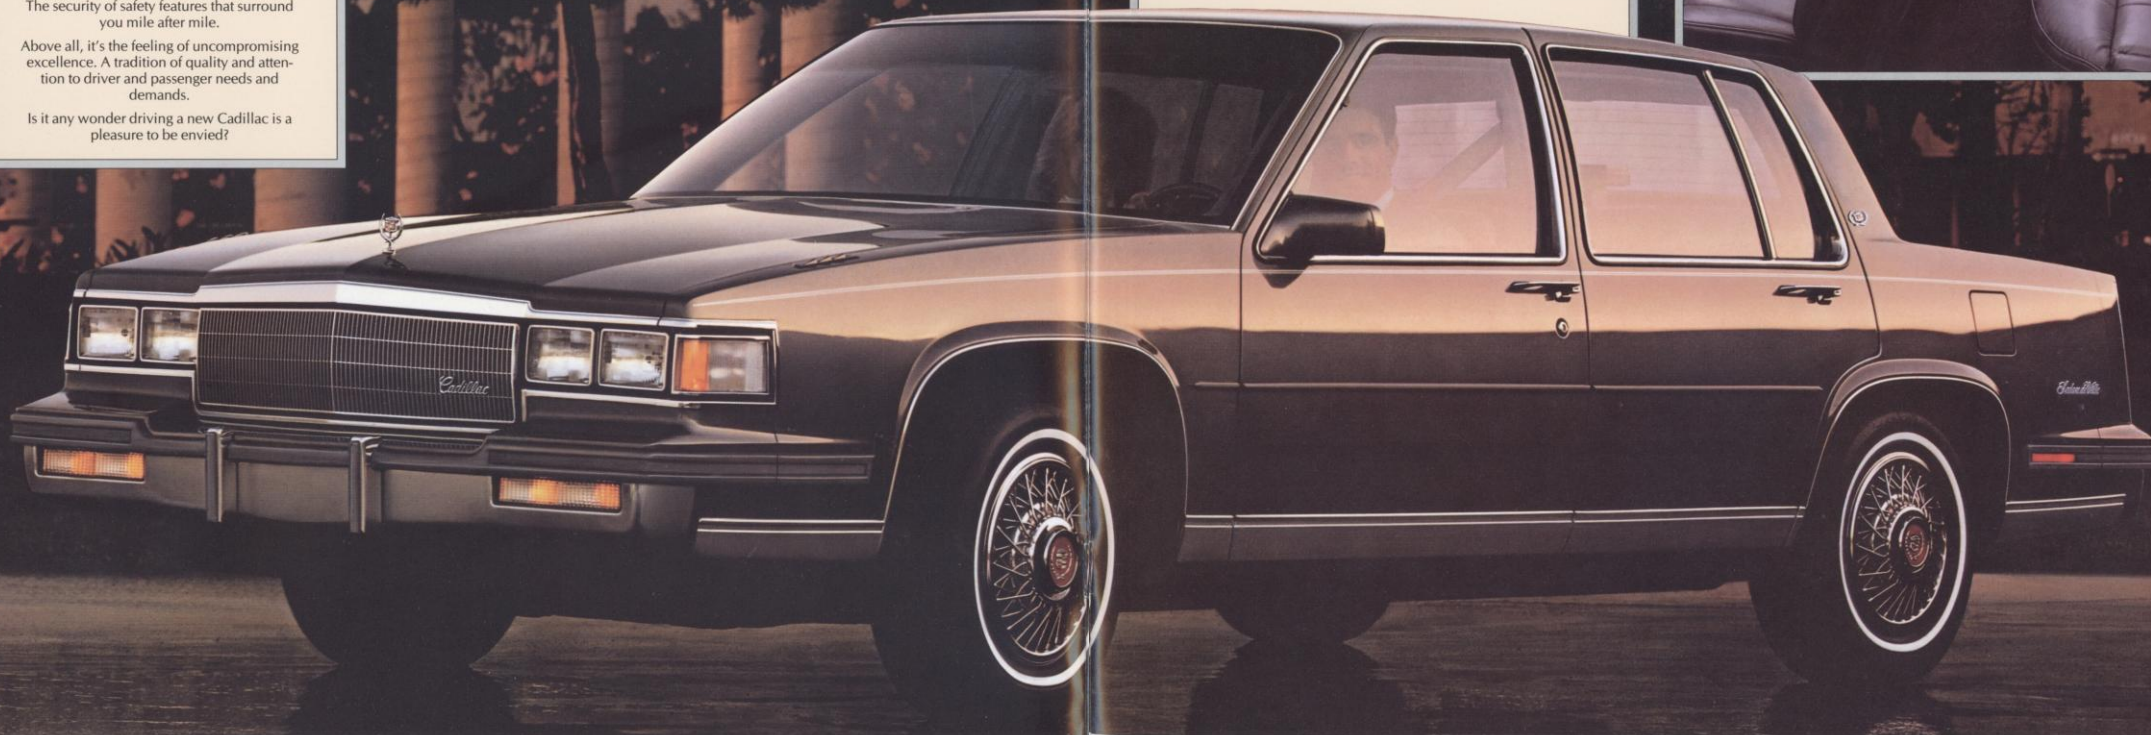

SEDAN DE VILLE

Contemporary design. Advanced technology. Cadillac luxury. Front-wheel drive and a transverse-mounted V8 engine provide optimum traction. Advanced electronics maximize convenience, and minimize driver effort.

Sedan de Ville's elegance is typified by its new standard closed-in, limousine-style rear window. The six-passenger interior is as generously proportioned as it is graciously appointed.

1986 Sedan de Ville shown in Academy Gray.

Interior shown with available Gray leather seating areas.

COUPE DE VILLE

This two-door expression of De Ville has all the advanced technology, six-passenger comfort and Cadillac luxury found in the Sedan, with a style and character all its own.

New for 1986, De Ville has available one of the world's most sophisticated anti-lock braking systems. And once again, the quality of De Ville is backed by a 4-year/80,000-kilometre (50,000 miles) limited warranty. In some cases, a deductible applies. Consult your dealer for details.

1986 Coupe de Ville shown in Garnet with available matching Formal Cabriolet roof treatment.

Interior shown with available Garnet leather seating areas.

FLEETWOOD SEDAN

Fleetwood. The name signifies luxury, elegance, exclusivity. Here is a car that offers a different dimension in luxury performance.

For 1986, a new standard Formal Cabriolet roof treatment highlights the closed-in, limousine-style rear window. Also new is a sophisticated standard digital instrument cluster.

1986 Fleetwood Sedan d'Elegance shown in available Corinthian Blue Firemist.

Interior of Fleetwood Sedan d'Elegance shown with Dark Blue leather seating areas.

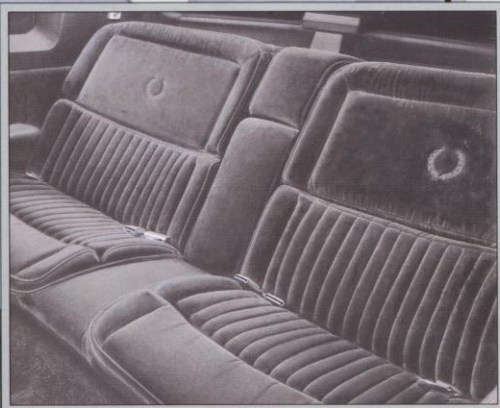

FLEETWOOD COUPE

Fleetwood Coupe possesses the same qualities that make any Fleetwood special. Electroluminescent opera lamps, wire wheel discs, and a Formal Cabriolet roof treatment are just a few of the many luxury touches.

Equally luxurious are such advanced Cadillac features as independent four-wheel suspension and front-wheel drive with a transverse-mounted V8 engine, a Cadillac exclusive.

1986 Fleetwood Coupe shown in Platinum.

Fleetwood Coupe interior shown in Gray cloth.

DE VILLE TOURING COUPE AND SEDAN

These new Cadillacs are made for drivers who want a combination of ride and handling far beyond the commonplace. And who won't give up luxury to get it.

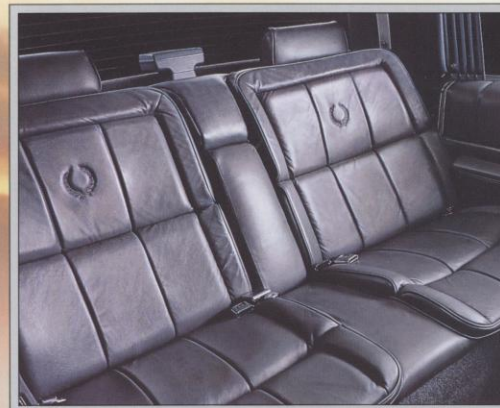

The suspension is carefully controlled, with firmer springs and tighter strut valving. Traction is impressive, thanks to front-wheel drive and Goodyear Eagle GT blackwall radial tires on 15" aluminum alloy wheels. Steering is quick and precise.

Outside, an air dam beneath the front bumper controls the wind, while fog lamps light the way. Gray, silver and body-colour mouldings and accents contribute to the distinctive appearance.

Inside, Gray leather seating areas are hand-fitted with care. Leather also adorns the automatic shift and steering wheel tilt lever, the horn pad insert and, of course, the steering wheel rim.

1986 De Ville Touring Sedan shown in Platinum.

Gray leather seating areas with leather-covered headrests.

DE VILLE & FLEETWOOD STANDARD FEATURES

A WORD ABOUT ENGINES

Cadillacs are equipped with engines produced at facilities operated by GM car groups, subsidiaries or affiliated companies worldwide.

A WORD ABOUT THIS CATALOGUE

The vehicles described in this catalogue incorporate components produced by General Motors of Canada Limited and related companies and suppliers. During manufacturing, different components than initially scheduled may be used.

All illustrations and specifications contained in this catalogue are based on the latest product information at time of publication approval. The right is reserved to make changes at any time, without notice, in prices, colours, materials, equipment, specifications and models, and to discontinue models. Some of the equipment shown or described throughout this catalogue is available at extra cost or can only be ordered in conjunction with the other optional equipment. Some options may not be available when your vehicle is built. Check with your dealer for complete information.

WHAT MAKES A
CADILLAC A CADILLAC

It all began in 1902. A commitment to quality and excellence. As a result, for the past 37 years, more car buyers in North America have chosen to own Cadillac than any other luxury car.

Today, that commitment remains obvious in such traditional areas as fit, finish, materials, appointments and craftsmanship.

But it now becomes evident, too, in state-of-the-art and leading-edge developments in safety and technology.

Traditional or advanced, however, the ultimate test of Cadillac quality and excellence is simply this: Does it contribute significantly to owner satisfaction?

That's what makes a Cadillac a Cadillac.

General Motors recognizes that taking delivery of your new vehicle is a significant event. To ensure that your delivery experience contributes to your overall satisfaction, we have implemented a "Commitment to Excellence" Delivery Procedure.

This procedure includes a thorough new vehicle inspection by both the service technician and salesperson, a full tank of fuel, and a follow-up survey to determine your satisfaction with the delivery experience.

General Motors "Commitment to Excellence" is yet another excellent reason to "Look to GM Today".
