'56 FORD

*The fine car
at half the fine car price*

© 1955, Ford Motor Company, Dearborn, Michigan

New Thunderbird Styling . . . all 19 Ford models for '56 offers the distinguished look of this newest version of America's "most wanted" personal car.

New Thunderbird Power for all models

Now you can get Thunderbird V-8 power in every one of Ford's 19 new models! Up to 225 h.p. in Fordomatic Fairlanes and Station Wagons . . . up to 202 h.p. in Fordomatic Customline and Mainline models.

In Ford, for 1956, you will find all the thrill and excitement of Thunderbird power and Thunderbird styling teamed with a history-making new concept of driver and passenger safety—Lifeguard Design!

Lifeguard Design is another Ford first . . . a Ford first for "Safety First."

For years, Ford safety engineers in cooperation with Universities, medical associations and safety experts have worked to determine the causes of accident injuries . . . so that a safer car could be built. They found that over half of the serious injuries were caused by the driver being thrown against the steering column, occupants striking hard surfaces inside the car, or being thrown out of the car.

For the '56 Ford, a whole new family of safety features has been developed to guard against these hazards. Ford's new Lifeguard steering wheel, door latches, seat belts, and special padding for instrument panel and sun visors—the integral parts of Lifeguard Design—are illustrated and described on this page.

Once you learn what Lifeguard Design can do for you and your family, you will truly enjoy the greater "peace of mind" that comes from owning a '56 Ford. And Lifeguard Design is only the beginning of the Ford fine-car story for 1956!

Ford brings you new Thunderbird styling in all 19 models—long, low, breathtaking lines that only the fabulous Thunderbird could inspire.

Ford now offers you Thunderbird power in every model . . . up to 225 h.p. with the magnificent new Thunderbird Special V-8. These engines are so packed with GO . . . so completely responsive in all driving ranges that they're a sheer delight to drive. And you'll appreciate the feeling of confidence that comes from the tremendous reserve of passing power at your command.

In addition, Ford has many other fine-car features for 1956 . . . luxurious new interiors . . . the comfort of smooth Angle-Poised Ride . . . wonderful handling ease and convenience . . . quality construction and finish. Truly the '56 Ford is the fine car at half the fine-car price.

New Lifeguard Panel Padding

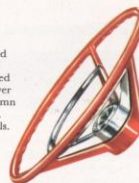

Ford makes available special, new protective padding for the instrument panel and sun visor to guard you and your family against a major source of injury in accidents.

New Lifeguard Door Latches

New double-grip design reduces the possibility of doors springing open . . . gives added protection against occupants being thrown from the car in accidents. Standard on all models.

New Lifeguard Steering Wheel

Beautifully styled—and designed with a deep center to provide added protection for the driver from the steering column in case of an accident. Standard on all models.

New Ford Seat Belts

Provide new protection and peace of mind. Optional for both front and rear seats. They're comfortable and convenient to use. Available in colors that harmonize.

m *ainline* . . . three new sedans—styled for distinction

GRACEFUL Thunderbird-inspired lines give these new Mainline Fords an air of action even when standing still. They're powered by the new 176-h.p. Ford V-8 engine with Fordomatic Drive or the 173-h.p. Ford V-8 with Conventional or Overdrive. As an option, you can choose the new mighty Thunderbird V-8 engine that delivers 202-h.p. with Fordomatic, 200-h.p. with Conventional or Overdrive. Or you can have the new 137-h.p. I-6 engine. Whichever you choose, Ford Mainlines offer you a car that is unusual in distinctive, low-cost transportation.

Fordor Sedan

A wonderful family buy—and you "go" in Thunderbird style! Beneath its beauty is the strong K-bar frame and full-welded steel Crestmark body found in all Ford sedans.

Tudor Sedan

Here's a Tudor, six-passenger car with clean, functional styling. Has wide-opening doors with two-stage checks and seat backs which fold forward toward the center for easy access to rear compartment.

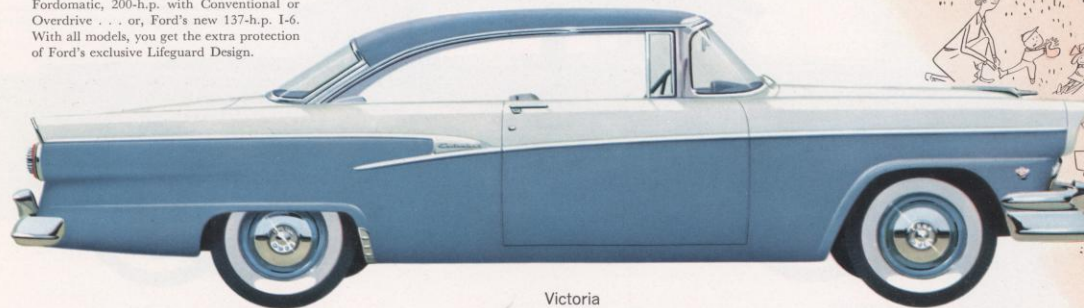

Tudor Business Sedan

Practical for business and pleasure. Lots of luggage space behind front seat. With any of the four new V-8 engines, or with the new I-6 engine, you get time-saving, gas-saving "Go."

C *ustomline* . . . a distinguished new Victoria and two popular sedans

YOU'LL LIKE the exciting new Thunderbird styling of these Customline models. You'll like the get-going ability of Ford's new V-8 engines, 176-h.p. with Fordomatic, 173-h.p. with Conventional or Overdrive. As an option, you can choose the new 202-h.p. Thunderbird V-8 with Fordomatic, 200-h.p. with Conventional or Overdrive . . . or, Ford's new 137-h.p. I-6. With all models, you get the extra protection of Ford's exclusive Lifeguard Design.

Victoria

This trim "hardtop" . . . newest of the Customline Fords . . . is as smart as a convertible, snug as a sedan. As in all Customlines, you get a choice of three types of exterior color styling: Single-Tone, Two-Tone and new Style-Tone.

Fordor Sedan

This car, like all Fords, has the added safety of big jet-tube taillights, big new wrap-around parking lights, extra-large windshield and King-Size double-sealed brakes.

Tudor Sedan

Here's a car that *belongs* wherever you drive. Six passengers ride in comfort and style. Glamorous upholstery in handsome patterns cover wide, sofa-soft seats.

Fairlane . . . seven fine-car models . . . supreme in their field

Town Sedan

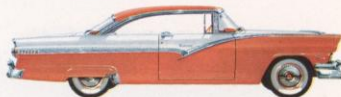

The most distinguished, most comfortable of all 4-door sedans. Low and roomy, it's offered with a choice of 25 harmonizing interior-exterior color combinations.

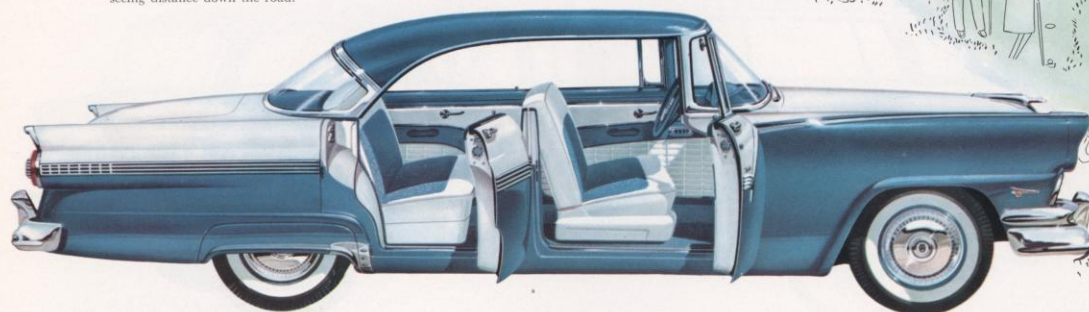

Club Sedan This trim beauty has a new low roof line, unique interiors, real comfort. Its two doors are extra wide and the seat backs fold centerward for easy access to the rear seat.

Sunliner The Ford Sunliner, far and away America's favorite convertible, is even more spacious, even more beautiful inside and out, with its brand-new Thunderbird-inspired styling.

Victoria With a roof line nearly two inches lower—yet with more than ample head room—this Victoria has a new and distinguished silhouette. A truly smart car, it stands out wherever you go.

Fordor Victoria

Newest and fairest of the Fairlane Fords, here is all the "open air" smartness of the world-famous Victoria, plus the added comfort and convenience of four wide-opening doors. Side windows roll down out of sight, leaving no center posts in view!

Crown Victoria Meet the Queen of the Victorias—a car apart from all others. It wears tasteful exterior chrome trim . . . including its distinctive Crown . . . and has the finest interior appointments.

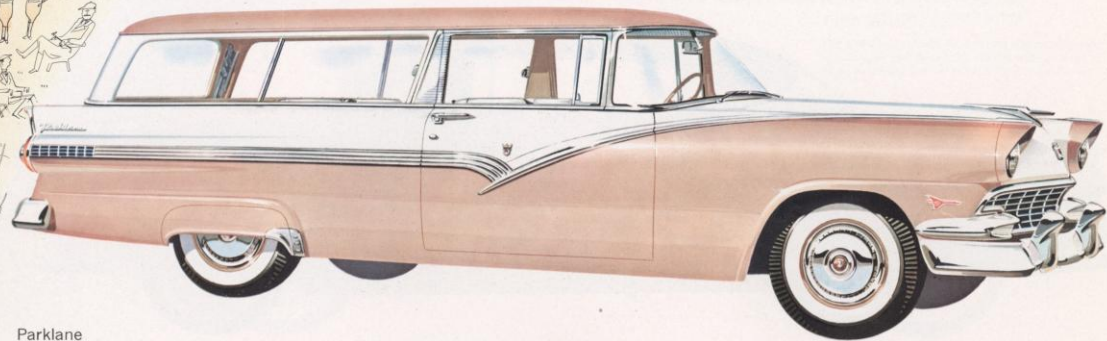

Crown Victoria Skyliner Features a long, low silhouette, the unique interior styling of the Crown Victoria plus a tinted "sky-view" top that is exclusive to Ford in its field. Has convenient roof curtains.

BEAUTIFUL, breathtaking, brilliant—with a fine-car concept of Ford's famous Thunderbird. Now available in every Fairlane is the magnificent 225-h.p. Thunderbird Special V-8 engine teamed with Fordomatic Drive. Or you can have the new Thunderbird V-8 that delivers 202-h.p. with Fordomatic Drive, 200-h.p. with Conventional or Overdrive. Or you may choose Ford's new 137-h.p. I-6. As in all '56 Fords, you get new headlights that increase lower-beam visibility by a vital 80 feet—giving you much greater safety, greater seeing distance down the road.

S

Station Wagons . . . America's favorite Wagons number six for '56

Parklane

Ultra-fashionable addition to Ford's Station Wagon line. Beautiful new styletone exteriors—harmonizing, specially trimmed interiors—carpeting throughout. Vinyl cover snaps neatly over luggage area below window line. Two doors, 6 passengers big.

Ranch Wagon

For Sunday calling and Monday hauling, at low cost. Two doors, 6 passengers . . . converts in a jiffy to a spacious 8' x 5' cargo carrier, with tail gate down. New Unique 2-Tone styling shown.

Custom

Ranch Wagon

Home on the range or at large in the suburbs, this 2-door, six-passenger car is the double-duty favorite. Durable, easy-to-clean upholstery can *take* punishment and *stay* beautiful.

Country Squire

Traditionally distinctive! Mahogany-finished steel panels, with wood-grained, glass-fibre moldings, add dash to the 8-passenger Squire. Storage deck is nearly 9' x 5', with tall gate down.

6-passenger

Country Sedan

Has 4 wide doors—giving easy access to both front and rear seats. Superior, easy-operating rear gates. Its smart new Style-Tone colors will attract admiring glances.

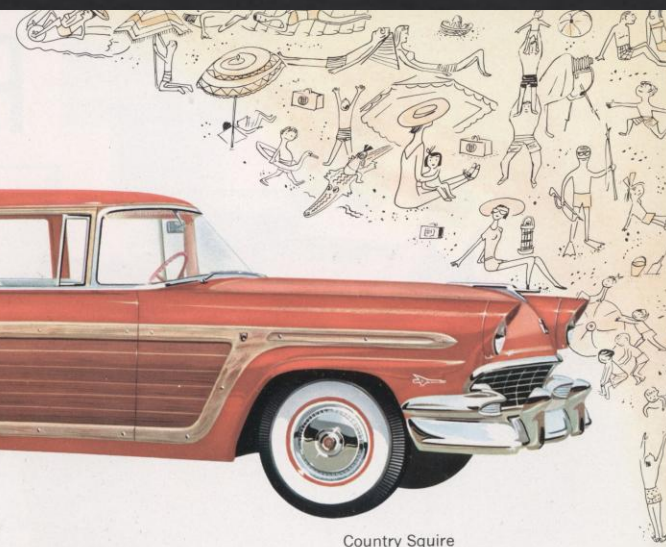

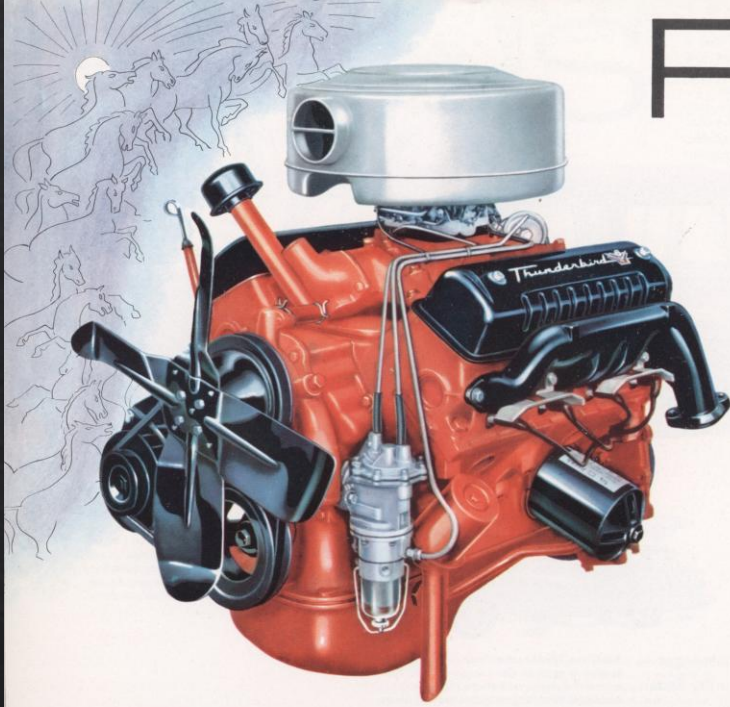

8-passenger

Country Sedan

Traditionally, the most popular 8-passenger Station Wagon in the low-price field! Now, more stylish than ever with exciting new colors. And like all Ford Wagons it has Lifeguard design.

WHETHER YOU want two doors or four doors, seating for six or eight passengers, Ford has a Wagon that's just right for you—with just the degree of luxury and practicality you want. And what a choice of power! You get the new 202-h.p. Thunderbird V-8 engine in any Fordomatic-equipped Ford Station Wagon—the new 200-h.p. Thunderbird V-8 with Conventional or Overdrive . . . the most power that's *standard* in the low-priced field. Or you may get as optional, the magnificent new Thunderbird Special V-8 that delivers 225-h.p. teamed with Fordomatic Drive. And available, too, is the even more economical 137-h.p. I-6 with any transmission.

P

resenting the new Thunderbird V-8 . . .
available in every '56 Ford!

For 1956, all Ford Fairlane and Station Wagon models offer the new Thunderbird V-8 engine or, as optional, the magnificent new Thunderbird Special V-8 engine. Mainline and Customline Fords bring you the advanced new Ford V-8 or, as optional, the mighty new Thunderbird V-8. Or, if you prefer a Six, Ford offers the new and even more economical Ford I-6, available in all models.

The beauty of these new engines for '56 lies not alone in their quick, sure responsiveness, their greater passing ability. It lies in their deep-block, low-friction design which gives you smooth, quiet power, longer engine life.

The new 225-h.p. Thunderbird Special V-8, teamed with Fordomatic Drive, has a displacement of 312 cubic inches and a compression ratio of 9.0 to 1. This makes it the biggest engine available in the entire low-price field. The new 202-h.p. Thunderbird V-8, standard with Fordomatic Drive, has a 292-cubic inch displacement—a compression ratio of 8.4 to 1. The new 200-h.p. Thunderbird V-8, standard with Conventional or Overdrive, has a compression ratio of 8.0 to 1. All three engines feature a Double Twin-Jet carburetor with integrated automatic choke . . . dual exhausts . . . turbo-wedge combustion chambers . . . and Automatic Power Pilot.

Advanced new 176-h.p. Ford V-8, standard with Fordomatic Drive, has a 272-cubic inch displacement—an 8.4 to 1 compression ratio. With Conventional or Overdrive, the Ford V-8 engine has an 8.0 to 1 compression ratio and is rated at 173-h.p. You get a Twin-Jet carburetor with integrated automatic choke.

Advanced new 137-h.p. Ford I-6 can be teamed with any of Ford's three transmissions. It has a 223-cubic inch displacement and a new 8.0 to 1 compression ratio for more power, quick response, greater gas economy.

G

o with confidence . . .
whenever, wherever you go!

SPEED-TRIGGER FORDOMATIC DRIVE

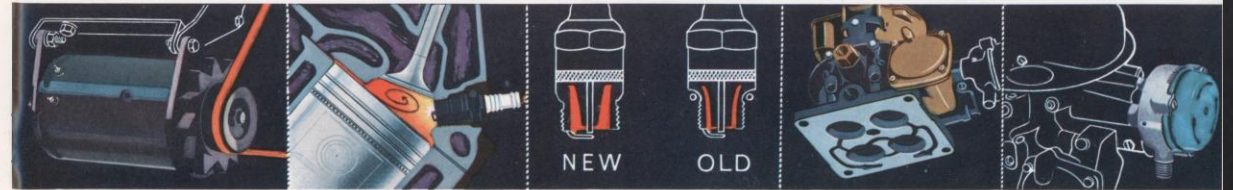

You get instant response—when instants count—with Ford's reassuring passing power. This means added confidence in all your driving.

Here is really smooth no-shift driving! Fordomatic is the most versatile automatic drive in any car. Without moving the selector from Drive (DR), you can start normally or extra fast because Fordomatic has 3 automatic forward gears, including a "getaway" gear.

Ford Overdrive makes driving smooth, quiet, relaxing. And, it's won-

derfully economical. An automatic "4th gear" lets your engine loaf along at 35 miles an hour while your car's actually doing 50 . . . saves you up to 15 cents on every gas dollar.

Ford Conventional Drive now has newly designed gears to go with new greater engine power for '56. It's the easiest manual shifting there is.

New 12-Volt Electrical System

This brand-new electrical system provides more power to handle the ever-increasing number of accessories . . . makes for faster starts and better ignition at high speeds. This 12-volt battery and higher-capacity generator system is standard on all Ford cars.

Turbo-Wedge Combustion Chambers

These wedge-shaped chambers swirl fuel-air mixture swiftly and evenly throughout the chamber . . . for fast, complete burning. Ford's short-stroke, low-friction design boosts power, extends engine life.

Anti-fouling 18mm. Spark Plugs

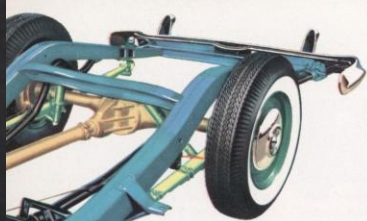

They help maintain new-car performance longer. With more room between plug core and shell, these plugs resist fouling up to 3 times as long as conventional plugs . . . help curb pre-ignition as well as misfiring.

Double Twin-Jet Carburetor

To provide better breathing for rapid acceleration and high speeds, this carburetor has 4 barrels. Unlike other systems, the additional two barrels are brought into use by engine's needs, not gas pedal position.

New Automatic Choke

Ford's new automatic choke, an integral part of Ford's famous Automatic Power Pilot, is standard equipment on all V-8 models . . . gives better starts and more efficient fuel control, automatically.

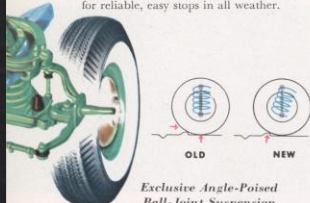

Hotchkiss Drive

Driving and braking forces are transmitted through rear springs for easier, smoother starts. Rear springs are of variable-rate design to give better control on rough and smooth roads alike.

King-Size Brakes

Ford's extra-large brakes are designed for continuous dependability and double-sealed for reliable, easy stops in all weather.

Exclusive Angle-Poised Ball-Joint Suspension

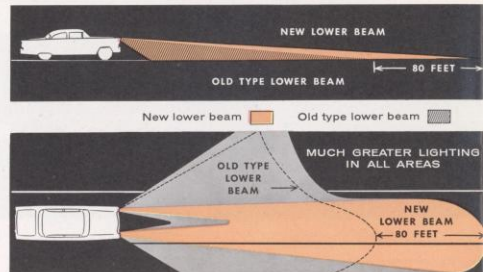

Front springs are angled back to cushion out head-on as well as up-and-down shock of bumps. Front wheels move about ball joints . . . whether in up-and-down motion, or in steering motion, for consistently easy handling. Ball joints, sealed against water and dirt, can't bind or get out of line.

Ford's Rugged Chassis Design

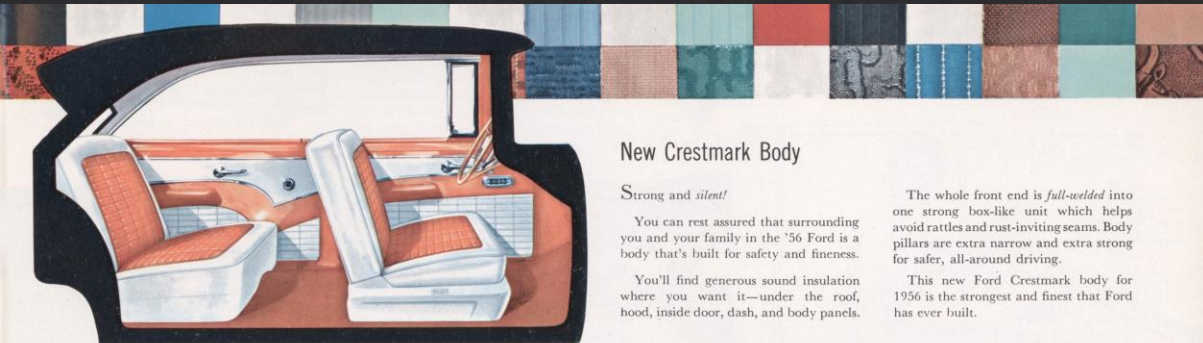

K-bar Frame

Ford's deep box-section frame has 5 big cross members including a unique K-bar for extra twist resistance. Fordor Victoria and Sunliner have a special X-bar.

Newest type sealed-beam headlights provide greater seeing distance down the right side of the road on the lower beam. This extra distance amounts to as much as 80 feet and gives from 10% to 19% sighting-distance increase. This means safer driving at night and under adverse weather conditions.

Optional Fordor Victoria interior shown

Spectacular new Luxury Lounge Appointments

Ford interiors are fresh and new . . . built for beauty and comfort.

New deep-cushioned seats are upholstered in exquisite new fabrics. They are custom-tailored and color harmonized with all other interior trim . . . and from

a refreshingly new palette of colors! Interiors are color-keyed to exterior finishes.

Ford's new Thunderbird-type control panel, which "clusters" instruments for easy reading, also combines to give this year's Ford a truly fine-car décor.

New Crestmark Body

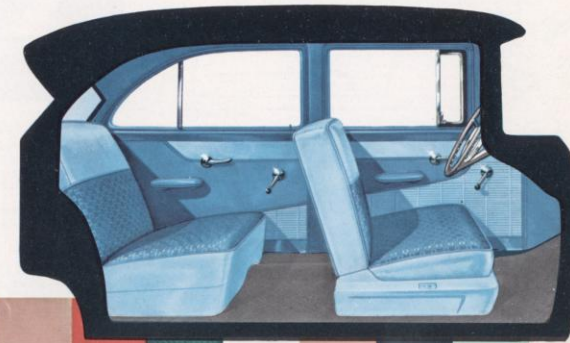

Strong and silent!

You can rest assured that surrounding you and your family in the '56 Ford is a body that's built for safety and fineness.

You'll find generous sound insulation where you want it—under the roof, hood, inside door, dash, and body panels.

The whole front end is *full-welded* into one strong box-like unit which helps avoid rattles and rust-inviting seams. Body pillars are extra narrow and extra strong for safer, all-around driving.

This new Ford Crestmark body for 1956 is the strongest and finest that Ford has ever built.

Customline Fordor interior shown

POWER ASSISTS

Master-Guide Power Steering

Here's power to help you park with up to 75% less effort—to assist you in all your driving—yet let you retain the "natural" feel of steering on street or highway.

Swift Sure Power Brakes

It's wonderful how lightly you have to step on the brake pedal to stop. It takes up to one-third less effort—makes driving in traffic much easier, more relaxing.

4-Way Power Front Seat

Press a button and power moves the seat backward or forward, up or down. You get the exact leg room you want . . . and the exact height you choose . . . for safer, easier driving.

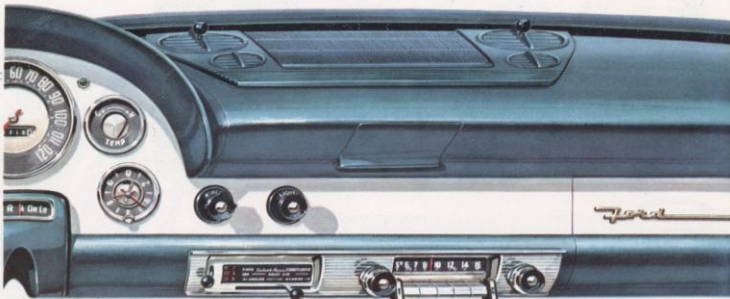

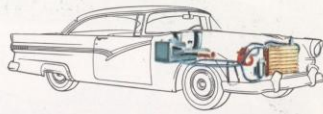

Power-Lift Windows

A flick of a button on the driver's door and you can raise or lower any or all four side windows. There's a handy button under each window, too—for passenger convenience.

New Select-Aire Conditioner

All-climate air-cooling, ventilating, heating, defrosting, all in one! One lever controls everything. Unlike many other car air conditioning systems, here is a compact unit forward of the instrument panel. It contains all elements so that no passenger or trunk space is lost.

New Electric Clock

Smart, accurate timepiece lets you check time at a glance. Illuminated for night driving. Available for all models.

New Select-Aire Conditioner Control

For cooled air, move the temperature control lever to left. For warm air, move it right. Set the blower lever at "low" or "high," as desired. Adjustable air vents shown.

New! Ford Signal-Seek Radio

New 9-tube radio automatically tunes in stations in either direction of the dial. Button (T) tunes local stations, (C) gives broad coverage. Fine new 6-tube, push-button radio also available.

New! Ford Seat Belts New! Lifeguard Padding

Sturdy Ford seat belts, front and rear, hold you securely in your seat in case of accident . . . provide simple, one-hand adjustment and release. Specially designed padding, available for instrument panel and sun visors, offers greater protection against accident injuries.

New Magic-Aire Heater

Here's a truly dependable heating, ventilating and defrosting system! You get even heat distribution—temperature controlled.

Auto-Wipe Windshield Washer

Each time you press pedal, windshield is sprayed, wipers operate automatically—in one operation.

Back-Up Lights

For easy, safer backing up at night. They flood area behind car with twin beams of light while car is in reverse.

Outside Rear-View Mirror

Convenient glareproof mirror makes driving safer. Off-center ball joint allows wider adjustment. Durably chrome plated.

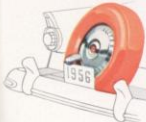

Fender Shields

They make your Ford even dressier—keep mud from splattering rear fenders. Made of sturdy steel, available in colors to match the body.

Wheel Covers, Trim Rings

They set your Ford apart from others in the block. Easy to install, to clean, to remove for tire changes.

Sports Wheel Carrier

Dress up your Ford like the Thunderbird and enjoy more trunk space, too! Can be easily installed by any Ford Dealer.
